INTERNATIONAL CARTOGRAPHIC ASSOCIATION

Certificate of national membership

We hereby certify that

Instituto Geografico Militar, Uruguay

**has been accepted as National member
of the International Cartographic Association**

by the ICA General Assembly, on 3 July 2011

Any nation which pursues a cartographic or GI science activity can be accepted as a member nation of the ICA provided that it agrees to participate financially in supporting the Association and in collaborating actively in its scientific and technical activities. Each nation can only be represented by one single organisation, which should preferably be the national society or committee for cartography or GI science or a national mapping agency/authority. Thus, a member nation is represented by a national member organisation such as one of these.

(Statutes, Article 3)

László Zentai

Secretary-General and Treasurer of the ICA
